

PPC-6122SXTD

Industrial Panel PC with CPU/Memory/HDD/LAN/I/O/Power Supply

INTRODUCTION

PPC-6122SXTD is an industrial panel computer with brand-new design. It comes with a built-in 80G hard disk, two USB ports, expandable to four USB ports, one serial port, expandable to four serial ports, PS/2 mouse/keyboard port. It is four kilograms in weight, easy to carry. PPC-6122SXTD is an industrial panel computer with high cost-performance, which is widely used for communications and control terminal in the fields of navigation, electric power, manufacturing, industrial automation device, etc.

FEATURES

- 12.1" LCD monitor, 12.1" touch screen
- EC4-1713CLDNA motherboard
- Supports up to DDR2 1G memory slot of laptop

SPECIFICATIONS

Chassis: High-quality steel panel
Display Screen: 12.1" LVDS LCD monitor, with resolution up to 1024 x 768
Processor: Intel Pentium M 1.6G CPU
Memory : Supports up to 1GB DDRII memory
HDD Interface: 80G hard disk
LAN : 1 x 10/100M Ethernet controller
I/O Interface: 2 x USB ports, 1 x serial port (expandable to 4 x serial port) , 1 x VGA, 1 x PS/2 KB/MS port
Power Supply : ATX power supply
Operating Temperature : 0°C~60°C
Storage Temperature : -40°C~60°C
Operating Humidity : 5%~90%, non-condensing
